Improved Basic Education in Cambodia (IBEC) Project SUCCESS STORY

Helping Teachers Continue Their Self-Development

MR. PHEA GETS A CHANCE TO REBUILD HIS CAPACITY IN COMPUTER USAGE

The IBEC Project seeks to promote better-educated youth with increased access to a quality and relevant basic education through an approach that emphasizes holistic programming, stakeholder-driven development, and improved educational relevance and management.

Mr. Pey Phea is a teacher at Mahaleap High School in Koh Sotin District, Kampong Cham Province. He was included in the capacity-building workshop in Khmer Unicode and Open Office that was recently provided by IBEC. Mr. Phea related that he used to be a student at the National Institute of Education (NIE) in Phnom Penh. He studied using computers while he was enrolled there but then had no further chance to study when he was posted by the government to this district.

He said he had nearly forgotten everything he had learned at NIE when it comes to computers but now it is all rapidly coming back to him thanks to this technological upgrading that is occurring at his school.
